Section C – Coding Questions

1. Lists (15 Marks)

Create an HTML webpage for a training institute with the following requirements:

- Display the institute name using a heading.
- Create an unordered list of at least 5 technologies offered.
- Create an ordered list showing the learning path of a Full Stack Developer.
- Add a description list containing at least 4 technical terms and their definitions.
- Include a horizontal line between each section.

2. Tables (15 Marks)

Create a Student Performance Report webpage using HTML tables.

Requirements:

- Display a table containing 8 students.
- Include columns: Student ID, Name, HTML, CSS, JavaScript, Total, Grade.
- Use proper table headings.
- Add a title above the table.
- Merge cells appropriately wherever required using rowspan and colspan.
- Display a final row showing the class average.

3. Forms (15 Marks)

Design a Job Application Form for a Software Developer position.

Requirements:

- Applicant Name
- Email Address

- Mobile Number
- Gender (Radio Buttons)
- Skills (Checkboxes)
- Experience (Dropdown)
- Upload Resume
- Date of Availability
- Address (Textarea)
- Submit and Reset Buttons

The form should be neatly organized using tables for alignment.

Section D – Short Answer / Definitions (10 × 2 = 20 Marks)

1. Define HTML.
2. What is a tag in HTML?
